**TRIED EVERYTHING WITHOUT RELIEF. NO
REST NIGHT OR DAY. CURED BY
CUTICURA REMEDIES.**

My baby, when two months old, had a
breaking out with what the doctor called
eczema. Her head, arms, feet and hands
were each one solid sore. I tried everything
but neither the doctors nor anything else did
her any good. We could
get no rest day or night
with her. In my ex-
tremity I tried the CU-
TICURA REMEDIES, but
I confess I had no faith
in them, for I had never

were well, but I continued to use the RESOLVE-
 KENT for a little while, and now she is as fat as
 a dollar. I believe my baby would have been
 as fat if I had not tried CUTTURA REMEDIAL.
 I write this that every mother with a baby who
 will like mine can see that there is a
 medicine that will cure the CUTTURA REMEDIAL.

Let us Talk it Over.

You know as well as we do that there are hundreds of thousands of widows and orphans living to-day who bless the

father, who not only cared for them when he was alive, but had the foresight to care for them after his death by leaving them a five, ten or twenty thousand dollar life insurance policy. How will it be with you, good friend? Have you your life insured? If not, come in and let us talk it over. It is a duty you owe those dependent upon you.

The Washington Life and Accident Insurance Co. offers various classes of insurance—all good, but some fit certain cases better than others. The Washington stands at the head of its class, and offers better and more liberal policies than any company in the world.

Breaking Colls.

The American Agriculturist says: We strenuously object to "breaking" colts, or even using that term for an act which should never mean anything more than educating them to perform certain kinds of work that will increase their value and usefulness. We do not want to break down their spirit and vigor, but merely direct it; and to do this we have only to

THE BEST JUDGES SAY NO OTHER ROOF IN AMERICA COVERS SO GOOD AND FULL AN ASSORTMENT OF BLACK DRESS GOODS.

The best makers, the best dyers have had a hand in the matter. Careful buying helped. A stock of rare ripes. The styles and qualities you want are here. None of the rubbishy, rusty things that help to crowd shelves in so many places. This little list is only suggestive. You must look through and beyond it to realize the length, breadth and richness of the gathering:

THE RESOURCES OF THE EAST. The cry "Go West, young man!" is not heard as frequently as it was at one time. The resources of the East are realizing the possibilities yet to be seen in their fertile acres located as they are, near the great markets of the country. This subject a writer in the American Agriculturist, says: "It must be evident to those who give the slightest thought, that the tide of emigration, either from the old world or from eastern states to the far West, has run its course. One of the hopeful signs of the times is that this westward tide is turning back. We say this is hopeful because the resources of these older states have never been made the most of. About the time better methods of farming came into vogue, there was a general heigra of the best blood in the eastern states, young, active and energetic farmers, to the West to practice them."—American Farmer.

RIDER HAZARD, while undergoing the tortures of an interview in New York, is described as a tall, lank, middle-aged man, looking about in an alleged easy chair, with his legs in a general position, doing everything with his hands that the hands of a naturally awkward man ever did when he was in a state of nervousness. He is over six feet high, dark hair, but the delicate mustache which adorns his lip is quite light in color. A long, pointed nose gives his face a thin appearance, and a small, pointed chin shows that he has a full forehead and that his eyes are well apart. He has an agreeable manner and a pleasant smile.

Can an Honest Man Die Unnoticed? No! except under two conditions. First, that he is broken down in health, and therefore undrinkable; second, that he cannot spare a few cents a week for a coffin. An honest man's duty to his family compels him to provide for them (as well as he can) not only while he lives, but while they live. He has given his word for it—and he follows up his promise by the bond of a good life insurance company. He has given his word for it—and he follows up his promise by the bond of a good life insurance company.

One of the greatest advantages of underdraining is in its effect of increasing porosity of the soil. Wet land never freezes very deeply, as the strata of water near the surface turn into ice, and prevent further progress of cold downward. Remove this surplus water and the moist soil expands as its moisture freezes. This raises it and when the soil thaws the soil remains a little higher than before. Each year the soil rises a little deeper, until it gets to the frost line in the coldest weather, usually two to three feet deep. This is the depth at which the underdrain must be laid for permanent benefit. It is the depth at which the underdrain must be laid for permanent benefit.

Wanmaker's and Clothing—Men's Clothing. The thoughts go together. You count on getting there—for Man or Boy—the very best ready-made that the market affords. Better than that. There's no "market" limitations. What ever the possibility is, it is the Wanmaker mark.

That's the theory. The proof is all around. Meet a natty Business Suit on the street. From Wanmaker's very likely. So was that nobby Top Coat or that dresy Evening Rig, just as certainly.

The newest shadings and weavings show in the light Overcoats and Suits. This spring the young men's fancy lightly turns to "wood brown." Its tint that takes. Just the daintiest Oversack in this daintiest shade, \$15.

One of the newest things in Wall Papers is "Etched" Felt. Meant to do away with the plain look of simple Felt, and yet preserve the roughness, stippled effect that people of taste prize in a wall covering just now. The "Etched" Felt is mostly in two tones—some patterns in two colors; any of it has a peculiar richness. 35c to \$1.50 the piece.

Another Wall Paper feature is the way woven stuffs of almost every kind have been simulated. Here are tapestries that you might mistake for Gobelins; here are linen effects equal to the finest Dresden—if you keep far enough away.

SATURDAY, APRIL 11, 1891.

Unusual things have grown out of the Wilmington M. E. Conference which was in session at Centerville two weeks ago. Sinners have been accustomed to look upon the actions of organized religious bodies as being the expression of orthodox opinions and seasoned with fervent piety. The affair, however, therefore, suffers a considerable shock on learning of the high jinks of the good brethren of Dover district.

The appointments made by Bishop Fowler were not altogether satisfactory to the congregations, and in the district in question the dissatisfaction assumed a concrete form. When the newly appointed pastors of Willis' and Masten's Churches made the first visit to their respective churches they found the doors locked and the trustees against their purpose of keeping them closed till they got the man they asked for. Similar conduct was enacted in some other cases.

The aggrieved Methodists charge their president, Elder J. A. B. Wilson, with the cause of the trouble, and upon that reverend's head, just now, something ominous to blessings is being invoked. Resolutions denouncing his conduct have been adopted.

The trouble seems to have extended to Salisbury district. The stewards of Ashby church have issued a call having for its purpose the investigation of complaints made in reference to the removal of Rev. T. O. Ayres from the preaching of the Salisbury district and the appointment of Rev. W. F. Corkran in his stead. The convention is in session at Ashby church as we go to press to-day. Rev. Mr. Corkran and Rev. Mr. Ayres were both requested to be present. In their circular letter the stewards declare that the investigation is made in the interest of "piety and honesty."

Senator Geo. F. Edmunds of Vermont has tendered his resignation as United States Senator of that state, to take effect November the first. Senator Edmunds has for the past twenty-five years been one of the most conspicuous figures on the republican side of the senate; in fact, of that whole body. He has been recognized as the leader of the old school of republicans for many years.

He served as a member of the electoral commission of 1876, and has served as chairman of the senate judiciary committee since 1877. Secretary Proctor will probably be Mr. Edmunds's successor. No man in Vermont can for years fill the position he vacates. He was a strong, logical debater, witty, caustic and incisive. He has been for many years looked upon as one of the ablest lawyers of the country.

P. T. Barnum, the greatest showman on earth, died at Bridgeport, Connecticut, last Tuesday. He was one of the best known men in this country. His name has been on the tongue of every school boy for the past half century. He had a genius for humbugging. He seemed to understand thoroughly what would excite American curiosity and what the American people would pay to have it gratified. He went upon the principle that one had as well have his curiosity gratified by a humbug as a genuine article so long as the facts are not known. He collected his fortune in small sums from the millions who were his patrons, and with a lavish hand he dealt it out by the thousands and tens of thousands to the cause of charity. He seems to have stood alone as a genius in his line.

Democratic Victories.

Denver, Colo., April 8.—Denver to-day has a democratic mayor for the first time in her history, and the members of that party are celebrating the event as they have never celebrated since the election of Gov. Adams. Returns have been coming in very slowly and the exact figures cannot yet be announced.

Returns from various points in the state show that yesterday was a democratic landslide, as the gain of that party will reach 35 per cent.

At Central City, the house of Senator Teller, out of four councilmen the democrats elected three. The entire ticket was elected in Grand Junction.

At Colorado Springs the republicans elected their mayor but divided their councilmen.

Leadville elected a republican mayor and aldermen, while Trinidad gave everything to the democrats.

Governor Fowle Dead.

RAIMOND, R. C., April 8.—Governor Daniel G. Fowle died of apoplexy. He was 80 years of age. No previous announcement had been made of his indisposition, but he had for a day or two been suffering from indigestion and had not attended at the capital yesterday. He died at his residence at 10 o'clock and at 11:30 called his daughter to his chamber, saying he felt unwell, about to faint and then suddenly expired.

Governor Fowle graduated at Princeton in 1851. He was adjutant-general of the state under Governor Vane during the war and judge of the superior court in 1867, but resigned rather than obey General Canby's military orders. He was inaugurated governor in January, 1888. The body now lies in state at the capital with a guard of honor.

Opened Up by a Government Canal.

Canals have grown into vogue again in recent years, and the United States has just completed and opened an important waterway that opens up the entire Upper Tennessee Valley to communication with the Ohio and other Western rivers. The Tennessee river is navigable from its mouth to a point four miles above Knoxville, a distance of 650 miles, for the greater part of the year, except for a stretch of twenty-three miles, known as Muscle Shoals. It is around and through these shoals that a canal has been constructed, and recently a steamboat passed through en route from Chattanooga to the Ohio river. The whole region is rich in minerals, for which product cheap transportation is a great advantage, as they are heavy for their bulk, are not perishable, and time in their transportation is a matter of small importance. The Muscle Shoals Canal has not figured much in the newspapers, but will probably prove to be of great value to the region it brings into communication.—Pitt. Ledger.

Shopping Reduced to a Science.

Ladies can reduce shopping to a science and a pleasure in Baltimore by going immediately upon their arrival to the Eutaw House, where the reception room on Baltimore street set apart for their use free of charge, checking their parcels and taking lunch at their own restaurant facing Eutaw street. They can then make the rounds of the big millinery and dress goods stores, which are almost within a stone's throw, sending packages to the hotel. The Eutaw House, because of its location in the heart of the wholesale and retail trade of the city, is the most convenient hotel for visiting merchants and other business men. Street cars, which pass the hotel, lead to all parts of the city. Theatres are easy of access. It should be added that the Eutaw House has been remodelled, repaired, and provided with new sanitary arrangements, supplied with electric lights, fire escapes, and, in fact, all modern conveniences.

"Every Spring."

Says one of the best housewives in New England. "We feel the necessity of taking a good medicine to purify the blood, and we all take Hood's Sarsaparilla. It keeps the children free from humors, my husband says it gives him a good appetite, and for myself I am sure I could never do all my work if it was not for this splendid medicine. It makes me feel strong and cheerful, and I am never troubled with headache or that tired feeling, as I used to be."

The Delaware Hosiery Company has

been organized in Dover, Philadelphia capitalists offer to meet dollar for dollar any amount the citizens of Dover would subscribe from \$50,000 to \$100,000, and the capitalists of Dover will meet the proposition. The work will start with 75 hands employed. The stockings the Company will manufacture range in price from \$2.00 upward per dozen wholesale.

Woman Voting in Kansas.

KANSAS CITY, Mo., April 1, 1891.—Elections were held in Kansas to-day in all cities of the first and second classes. Although without general political significance, the results of the election are regarded with considerable interest.

The Citizens' Alliance has tickets in the field and is fighting the old parties. The Citizens' Alliance is really a branch of the Farmers' Alliance. The other element in the election which attracted interest to it is the fact that women under the laws of Kansas are allowed equal suffrage with men in municipal elections. It has been predicted that after one or two experiences at the polls the novelty of things would disappear, and with it women's interest in municipal politics. This prediction has not been fulfilled. On the contrary, women's interest in politics and activity at the polls have increased with each registration. The registration of women at the polls exceeded any former registration.

At Topeka the registration lists

were augmented by about 400 new names of women. At Wichita the increase was about 800, at Leavenworth 250 and at Lawrence 200. At Kansas City, Kan., 1,245 women were registered, at Leavenworth 2,745, at Topeka 2,740, at Wichita 2,200 and at Atchison about 1,800. In Kansas City, Kan., all the candidates provided carriages to take the women to the polls. About two-thirds of the female vote was cast there. The number of negroes that voted was notable. They marched to the polls with as much, if not more, pride as their white sisters, and exercised their right of suffrage with a satisfaction peculiar to their race.

Dewatches from other of the large cities

of Kansas indicate that the vote of the women, compared to the registration, was proportionate to the number of the women had their tickets prepared at home or at places of meeting, and their presence at the polls was only enough to permit them to deposit their ballots. A few female candidates appeared on any of the tickets, and these few were up for election for no office higher than membership on the school boards.

A Walter's Picky Fight.

On Sunday, April 7—Six men entered the Farwell House café last night and while two presented revolvers at Cashier Belvin's head the other four busied themselves with the cash drawer trying to intimidate the solitary waiter on duty. The waiter named Delmer grappled with one robber who was making off with a cash register and was fired upon twice but not seriously wounded. The shots attracted the police who chased the robbers into the door, a tenement house near by. The place was quickly surrounded by a patrol wagon load of officers, and after a sharp struggle all of the six desperadoes were arrested. In the fight at the house Policeman Smith received a bullet through his right hand. The prisoners are all local toughs and one is an ex-convict.

Should Set Their Own House in Order.

Honest John Davis, democratic candidate for Governor of Rhode Island, having received more votes than his republican opponent, but not a majority, the latter will be elected by the legislature, which is republican. So the will of the people is again frustrated, and to the minority belong the spoils. The same unjust rule prevails in New Hampshire, and Connecticut is given an illustration of it that should be sufficient to disgust her people with it henceforth. There are three States which ought to amend their constitutions. It particularly behooves the New England republicans to set their own houses in order before trying to impose the same on the government of some of the Southern States.—N. Y. Sun.

The Mountain Peach Crop.

Mr. J. M. Stover, of Edgemont, makes the following statement in regard to the outlook in that vicinity for a full crop: "We find after careful examination that the peaches are badly damaged by the mountain slope or peach beetle, some of the lower orchards as badly as 90 per cent, more especially on young trees, while on the ridges and hillsides in the valley there are likely to be enough left for a fair crop yet. The trees were left with ice after the storm of the 27th and 28th, and in the low places the mercury fell to 14°, while at higher altitudes it was warmer, and at Edgemont 25°. We have had no damage at all here, and we have had indications for a full crop."—Hagerstown Mail, April 4.

Beware of Outcrops for Catarrh that

contain Mercury, as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hood's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co.

Sold by Druggists, price 75c. per bottle.

Negroes Try to Lynch a Negro.

KANSAS CITY, Mo., April 7, 1891.—The preliminary trial of William McCoy, colored, who laid in wait to kill Collier McGroder, also colored, his mistress, last Sunday night and beat her head to a jelly with a stone, was set for to-day at Justice Barlow's office, near the scene of the killing.

A great crowd of negroes gathered

in front of the office with the avowed purpose of lynching the prisoner. It was considered unsafe to give the crowd a sight of McCoy, and the preliminary trial was held at the county jail. An enormous crowd of negroes surrounded the jail all the afternoon, and the sheriff has taken a number of extra deputies in anticipation of a possible attack to-night.

The Billion Congress.

Hundreds of thousands of dollars were appropriated by the Billion Congress for public buildings in small towns and obscure places. The members of the committee on buildings and some other 80 ARE CLERGED, and the balance was upon the public money as booty, and like a band of spoliators went in to divide among themselves all they could get.

Trustee's Sale

—OR VALUABLE—

Real Estate.

By virtue of a Deed of Trust from Albert M. Bonds and wife for the benefit of creditors, bearing date among the Land Records of Wicomico County, and here referred to, I will sell at public auction on the 26th of April, 1891, at the hour of two o'clock, p. m., all the Real Estate of said Bonds, viz:

BARREN CREEK SPRINGS, ON

SATURDAY, The 26th Day of April, 1891,

at the hour of two o'clock, p. m.,

all the Real Estate of said Bonds, viz:

FIRST.—All that farm, situate on the north side of the county road leading from the Springs to Vienna, whereon James P. Elliott now resides, and containing 148 ACRES, more or less, of which 80 ARE CLERGED, and the balance is in timber. The dwelling is large with necessary outbuildings, all in good order, and the soil is adapted to the growth of corn, berries and fruits—especially PEACHES. There will be a special sale of the land and the balance of the premises. This farm will be sold clear of the contingent right of dower of the wife of James P. Elliott.

Second.—All that farm on the opposite

side of the county road from the above described farm, and binding on Barren Creek, on which there is a wharf for the largest vessels. It contains 120 ACRES, more or less of arable land, and is almost new, with outbuildings in good order, and the soil is adapted to the growth of corn, berries and fruits—especially PEACHES, and none more convenient for their shipment by railroad and water as no other will be carrying a half mile. Besides they are located within three miles of the Springs, and within two miles of Vienna, both of which are flourishing railroad towns, with navigable waters.

THIRD.—All that lot of land adjoining

the lands of Alfred English, containing 4 ACRES, more or less, and well set in timber.

A Plat of said Farms may be seen at Thomas B. Taylor's Store.

TERMS OF SALE.

One fifth Cash on the day of sale, and the balance in two equal installments, the first of which will be paid on the day of sale with bond and security to be approved by the trustee.

PUBLIC BUSINESS.

Meeting of the County Commissioners and School Board.

At their meeting Tuesday the county commissioners granted Franklin P. Dashiell \$100 per month from April 1st, order to Thos. B. Taylor.

Mr. Bennett of the board was authorized to meet on Tuesday, April 14th, at 10 o'clock, the citizens interested in draining Harvie lake in 2nd district, on the premises, to confer and make arrangements for ditching.

The treasurer was ordered to pay A. Cheswold \$4.50 for spike horse for Alma house farm.

Mr. Johnson was authorized to make private contract for building road from near Morris' mill to Frank Jones' residence.

The Board instructed the Clerk to notify R. W. Hearn to keep his poultry off of court house square.

Account of T. R. Jones & Bro., for goods furnished Alma house, amount \$30.25, was approved and ordered paid.

Mr. E. J. Trull was before the board with an objection to the proposed road in 6th district, petitioned for by W. R. Laws, Jas. Laws and others. His advocate, Jas. B. Ellegood, Esq., argued that Mr. Trull had not been allowed sufficient damages by the examiners. The petitioners were represented by Graham & Stanford. After hearing testimony the case was held over by the board for decision at its next meeting, Thursday, April 21st.

SCHOOL BOARD.

The school board held its regular monthly meeting last Tuesday with a full attendance of members. Committee consisting of R. B. Gordy, George W. Smith, D. H. Peckay, and others, were before the board with petition to lay off new district from eastern portion of 2nd district, No. 3, Parsons' election district. The board ordered the petition filed to be considered at a future meeting with other petitions of a similar nature.

Bills were passed and ordered paid as follows: Emma Thawley, \$3.54; J. C. Kelly, \$6.05; P. B. Melton, \$8.00; Jesse T. Wilson, \$3.00; Humphreys & Tighman, \$27.64; B. L. Gillis & Son, \$10.00; L. Malone, \$5.00; Birchhead & Carey, \$8.00; W. L. Laws, \$10.00; W. A. White, \$3.00.

SHARPshooters Items.

The mistle have cleared away, the rains have abated and the vernal rays of the sun have greatly revived the animal as well as the vegetable kingdom. As the days grow longer human effort seems to grow greater and new avenues of business and labor are being opened. Among our citizens we find a new spirit of action. Many of them have taken shares in a large vessel now nearing completion at the marine railway and have also taken shares in another one to be built as soon as the one now being built is completed. A large number of the business men and mechanics met on Monday night for the purpose of considering the organization of a company here to operate a profitable enterprise on a large scale. There was an expression of determination to push the matter forward, and a committee consisting of John H. Smith, James Robinson and James F. Marine was appointed to reduce certain plans, suggested, to writing and then form a basis of the business.

The Nanticoke steamboat company has sold the steamer Chowan and abandoned the Nanticoke river route. The company, with T. Howard Dail as president, has built up and maintained a large trade on the river and much credit is due for the effort put forth. The company was composed largely of farmers and business men along the route, but with all these advantages the stockholders decided at a recent meeting to sell the boat and rent their wharf property along the river. The route will be supplied by the Choptank company and steamer Choptank is expected on the river in a few days.

Rev. T. L. Price, the "new" M. E. minister arrived here last week and performed his ministerial duties on Sunday. Mr. Pleasant St. George's Chapel and King's Chapel, of Delaware have been added to this place, making it a circuit instead of a station. The change is considered a wise one, and especially if the circuit is to be maintained. A few traves were set out in the afternoon, and the boys and girls seemed to enjoy the occasion with as much appreciation as if it had been a holiday day.

The fish season is late this spring, but few having been caught as yet. Various causes are assigned for this, and the fishermen are hopeful of an increased supply in a short time, especially if warm weather sets in. The fish hatching operation have not been begun yet.

A City Railway.

Messrs. J. A. Perry, C. O. Waller, L. E. Williams, W. H. McConkey and Col. L. Malone have petitioned the City Council for a franchise to build a street railway in Salisbury. The matter has been pending sometime, but the board of councilmen was unprepared to report on a decision. An answer will be given the incorporation, however, in a short time. The gentlemen concerned in the enterprise estimate the cost of the railway completed and equipped, at \$3,300 per mile. The petition to the council reads as follows:

TO THE MAYOR AND CITY COUNCIL OF THE TOWN OF CITY OF SALISBURY:

We the undersigned corporations of the "Salisbury Passenger Railway" pray your honorable body to grant us in our corporate capacity the authority, right, privilege, franchise and legal power to build, construct, lay down and complete a street railway in Salisbury, and upon the streets of the town or city of Salisbury, with all the necessary stations, stables, turntables, and all other necessary appendages to make, build, construct and operate a first-class city passenger railway, using thereon cars, carriages, and all other necessary vehicles to make, complete and operate the same, and to exempt the same from city taxes for the term of 12 years from the day on which the first car crosses over its tracks, fully equipped for passenger travel and accommodations; and your petitioners will ever pray.

A Destructive Accident.

Mrs. Thomas C. Morris was horribly burned about the face and head at her home near last Tuesday afternoon, while suffering from an epileptic attack. Her husband left her a short time before the accident in a room in which a low fire burned in an open fire-place. She was apparently well, and Mr. Morris went to the field to do some work. Shortly afterward, a son, who had been laboring near by, entered the house, and found his mother lying, unconscious, on the hearth with her head near the live coals. He snatched her from the hearth. The right ear and that side of the face had been slowly roasted on the hot bricks. Drs. Dennis and Felton dressed the burns, but she died Wednesday. Mrs. Morris has been a victim of epilepsy for some years. The interment was in the Rockingham road, E. churchyard at 10 o'clock (Friday) afternoon, after the funeral rites had been pronounced by the pastor.

ARBOR DAY.

Appropriate Observance of the Day by the Public Schools.

In accordance with Governor Jackson's proclamation, last Wednesday, April 8th, was observed throughout Maryland as "Arbor Day." The occasion was an important event in the public schools of Wisconsin county. All the schools devoted a part of the day to setting trees, and otherwise beautifying the school grounds. Reports of actual work done by the county schools have not yet reached the examiner. At the Salisbury High School the afternoon was devoted to an elaborate programme in which each of the six departments participated. The large building was decorated with the national flag; from each window floated the stars and stripes.

The programme was as follows: March song and March; Quotation by High School, (Prof. Thomas H. Williams, principal) "The Groves"; Recitation, "He who plants a tree," by the combined classes of Miss Waller, Mrs. Cooper, Miss Byrd, Miss Fish and Miss Fulton; Hymn—"My Country," School; setting and naming trees, by school, assisted by Messrs. Perry, Williams, and Ellegood who announced the names in honor of each particular tree was planted with appropriate addresses. As the name was called that class dedicating the tree sang an appropriate ode.

Miss Waller's class dedicated trees to the late George W. M. Cooper and John Howard Payne. To the last the class sang "Home, Sweet Home." The trees were held in position by Misses Willard, Woodcock and Marnie Gillis. In making the dedicatory address to Mr. Cooper's tree, Mr. Perry referred to the gentleman's labors in the county as examiner in the early days of the public schools. Mrs. Cooper's class planted its trees to the memory of the great historian, Geo. Bancroft and Charles Carroll of Carroll. They were placed in the ground by Masters Frank Gunby and Norman Ball. The honors of Miss Byrd's class were done by Masters Carroll Phillips and Clarence Waller. The trees were dedicated to Miss Lottie Fish and Mr. Thos. Perry. Miss Fish's school set a couple of trees to the honor of Gov. Jackson and Francis Scott Key. For Key the "Star Spangled Banner" was sung. Messrs. Bertha Sheppard and Lida Turner held the trees in place during the dedication. Miss Fulton's class honored Louise M. Alcott, the class's favorite author, and Cecil Calvert by planting to the memory of each a healthy young tree. Misses Maria Ellegood and Edna Sheppard did the honors. School Commissioner James Cannon shared the compliments of the High School with Prof. Williams. The class, represented by Miss Bancroft, Cooper and Ellegood, Waller, set a tree to each of these gentlemen. The dedicatory address was made by master Charles Rider, a pupil. Each class wore its favorite flower. Miss Waller's and Mrs. Cooper's classes wore blue hydrangeas; Miss Fish's and Miss Byrd's, yellow bells; Prof. Williams' and Miss Fulton's classes wore red flowers. The fine weather was very favorable to outdoor exercises, and many ladies and gentlemen, friends and patrons of the schools, were present to enjoy the very interesting programme.

No Doubt About Its Truth.
Here is a railroad story which is related by an Atlantic man, who, however, deprecatingly wishes to attach to the publication of his name:
"I was handling the freight on the Gulf Colorado and Santa Fe in 1885," he said. "I had a fast express and was near the town of Fort Worth in May of that year. We were behind our schedule and were pushing the old steam horse for all we were worth. So fast were we traveling that the telegraph poles looked like the prongs on a fine-tooth comb. We were just rounding a long curve, when suddenly I spied a little child playing on the track not over five hundred feet ahead. We always carried a stout leather lasso, made fast to the tender. Without more ado I grabbed that lasso and with a single throw circled it around a telegraph pole. My act threw the engine and seven cars from the track and saved the little one—but killed three hundred passengers."—Constitution.

The Trials of Winter.
Winter is a trying period, even to those who have strong constitutions, but it is doubly trying to those who are weak and delicate, or who have a tendency to the various diseases that are bred and fostered in the stagnant atmosphere of closed and heated houses. The system should be kept strengthened and toned up with a liberal course of S. S. S., the great blood tonic and purifier. It acts like a charm. It increases the appetite, soothes the nerves, and beautifies the complexion—in short, it makes life well worth living.

The Del Rio Well.
It is an artesian well with an abundant flow of pure water, sufficient to irrigate a considerable body of land. That would be enough for any one but a San Luis man, but this is mineral water. It is effervescent, very palatable and extremely healthful. Nor is this all; the force of the water brings up from the depths an occasional lump of native silver or a gold nugget. The frugal farmer has placed a sack of wire netting over the mouth of the well to catch the metal and prevent it from choking the cows. Local scientists claim that at a great distance down and under an enormous pressure the water is washing down a large rock whose softer parts go into solution and give the water its mineral qualities, but where gold and silver, not being dissolved, are brought to the surface in a metallic state.

An Honest Man Die Unmolested?
Not except under two conditions. First, that he be broken down in health, and therefore unmanageable; second, that he cannot spare a few cents a week for a lawyer. An honest man may be molested, but he will not be molested by a family lawyer. There are many who live, but while they live. He has given his word for it and he follows up his promise by the honest and reliable insurance company. This he does to protect himself by himself while living; but his insurance when he is gone. The "word" is good and the "bond" is good, but the word and the bond together are better.

A Test for Old-Colored Diamonds.
"Any one who buys an old-colored diamond," said a Maiden Lane dealer yesterday, "must be innocent, indeed, for, if you doubt the genuineness of its color, all you have to do is to dip it in a little alcohol or ammonia and the color will disappear. If it has been dyed, the fact will be immediately apparent. You can give an old-colored yellow diamond a white or steel blue look by rubbing it with an aniline pencil, but you can rub it with a handkerchief moistened with alcohol. The most precious stone is a pure pigeon-blood ruby. After it comes the fancy diamonds, such as brown, blue, pink, black and 'canary.' There are very few of the last kind in existence."—New York Sun.

Stand Your Ground.
When you make up your mind to take Hood's Sarsaparilla, do not be induced to buy some other preparation instead. Clerks may claim that "ours is as good as Hood's" and all that, but the peculiar merit of Hood's Sarsaparilla cannot be equalled. Therefore have nothing to do with substitutes and stick to the original Hood's Sarsaparilla, the best blood purifier and building-up medicine.

John Q. Levell, of Fairmont, W. Va., lost a male last week, whose eventful history runs through nearly the length of a generation of men. He was bought at a government sale of condemned stock at Clarkburg during the war and was brought there and put to work in the American mines during the war, since which time he has been constantly engaged about the mines, and literally died in the harness. It is reckoned that he was thirty-six years old and his head had become absolutely grey with age ere he gave up the ghost.

In consequence of winter diet and lack of open air exercise, the abdominal muscles become impaired. Ayer's Sarsaparilla is the proper remedy, in the spring of the year, to strengthen the appetite, invigorate the system, and expel all impurities from the blood.

Dr. Armand Jeannot, a young physician in Paris, is the latest in the field as a consumption cure discoverer. His cure is by inhalation. His apparatus consists of a small tubular brass boiler, connected with a brass pan with a lid. When in operation from under the lid escapes vapors which spread about the room, one of the parts of which is prosaic acid.

Nothing except the mint can make money without advertising.—Gladstone.

SMALL WISH.

If I might do one wish of

God, I would not forget him.

Or that one little thing that should

be in the world, I would not forget him.

Or that one little thing that should

be in the world, I would not forget him.

Or that one little thing that should

be in the world, I would not forget him.

Or that one little thing that should

be in the world, I would not forget him.

Or that one little thing that should

be in the world, I would not forget him.

Or that one little thing that should

be in the world, I would not forget him.

Or that one little thing that should

be in the world, I would not forget him.

Or that one little thing that should

be in the world, I would not forget him.

Or that one little thing that should

be in the world, I would not forget him.

Or that one little thing that should

be in the world, I would not forget him.

Or that one little thing that should

The Diocesan Convention will be held in St. Peter's Church, this city, June 23, 24, and 25.

The Sops of Temperance will hold a special meeting next Monday evening, commencing at 8 o'clock.

Fish Commissioner Reed received this week a check for \$30 from a city commission house for six barrels of fish.

Mr. Hiram Parker, a tenant of one of Mr. J. J. Morris' farms near town, was stricken with paralysis a few days ago. His condition is critical.

At a recent evening in Somerset County a lot of corn brought 91 cents per bushel. Corn is selling for 75 cents and more in this county.

There will be a festival and supper held at Green Hill Methodist Protestant church on Friday afternoon, May 1. Proceeds to be used in the repair of the church.

The Rev. Mr. Monford has accepted an invitation to deliver the annual sermon before the Young Men's Christian Association of Washington County, June 21st, next.

The citizens of Barren Creek district have made arrangements to start a cemetery at the Springs. The establishment will probably be located at or near Barren Creek bridge.

A small dwelling house located on the Wisconsin river, and belonging to Mr. Milton A. Parsons, was burned to the ground last Tuesday night. The cause of the fire is not known. Insurance, \$250.

Mr. Frank Brown will entertain the Maryland Democratic Editorial Association at luncheon, next Monday afternoon in Hazzer's Hall, Baltimore, at 2:30 o'clock. The Association will hold its annual meeting at the Hotel Howard that day.

Gay Brothers' Minstrels were before the footlights in Ulman's Opera House last Monday and Tuesday evening. The company ranks with the better class of minstrels, and their efforts to please those who saw them here were successful.

The farmers of Berlin have contracted to load the cargo of logwood with which the wrecked ship Hattie was laden and went ashore at Ocean City, on cars for shipment to its destination. The workmen are removing from the wreck about twenty tons per day.

Mr. Alonzo Dykes died of consumption last Sunday at his home in Nutter's district, this county. She was thirty-five years old. Her husband and four children survive her. Her remains were interred in the family burial ground Tuesday afternoon, Elder Polton, of the Baptist church, officiating.

E. William Perdue, found guilty of forgery and sentenced to a term of five years in the Maryland penitentiary in September of 1890, in the circuit court for Wisconsin county, will probably be pardoned. A petition has already been filed, and Governor Jackson will take the matter up for final consideration on Thursday, May 14th.

Justice Trader put the extreme penalty on two of Salisbury's colored men last Monday. Mr. Woodland I. Todd missed a fine gold pen from his desk in the Graham building, and he had Edward Gordy and Claude Mitchell arrested. The judge sentenced them to the House of Reformation till they shall have reached their 21st birthday.

Mr. A. R. Beaven, of the Baltimore commission house of Beaven, Blossom & Co., and son of Rev. Dr. Beaven of Caroline county, called at the Advertising office one day recently. Before leaving he ordered his firm's card inserted in the paper. In the firm is an older young man, Beaven, Mr. C. V. Turner, well known to many of the citizens of this county, as he is a native of Nanticoke Point.

Our merchants are just now enjoying the presence and trade of their down river friends. At the close of the oyster season each year the people of the county who are engaged in this industry sail up the river in their craft and lie at anchor in our harbor several days. Meanwhile they visit the stores and liberally exchange their well earned money for our merchants' wares. The number of boats of various kinds which lay in sight of the pivot bridge one day this week approached fifty.

Shad have been decidedly more plentiful on the Wisconsin this year than usual, probably for a year in the past. Our friends, Capt. Wm. H. Pratt, is confident that it is the result of his bill for the destruction of eels. Possibly it is, in conjunction with the work of the Fish Commission. Time alone will establish the truth of the Captain's theory. If we have a succession of such seasons, we may very reasonably suppose that the supply has been increased by artificial means and that the destruction of eels is one of the agencies, but if next year should prove to be an "off year" we will be at sea again as to the value of the artificial means of increasing the supply.

OUR OYSTERS.

Meeting at Tyakkin to Denounce the Leasing Proposition.

Wicomico oystermen, in common with all right-thinking Marylanders, view the proposition to lease or sell the oyster grounds to private individuals or corporations with indignation and alarm.

Last Thursday evening a large meeting composed of the Nanticoke and Wicomico river dredgers and tongers and others interested in the protection and development of the industry, met at the store of G. D. & J. A. Insley in Tyakkin and entered a strong protest against the proposition to make the oyster bottoms private or corporate property. The meeting was presided over by Mr. Jas. K. Covington, and discussions of the question were heated and bitter. These resolutions were adopted:

"Whereas: Certain persons in our State are endeavoring to create a sentiment to rob us of our common right to enjoy free and undisturbed the great and inexhaustible food supply scattered over the bottom of our bays and rivers, there fored:

"Resolved: That we are unalterably opposed to the selling, leasing or giving away the common oyster grounds of the State to any individual, corporation or syndicate, and that we will defend our rights to enjoy the privilege of taking oysters there grow by all honorable means."

Local Notice.

Mr. Wm. S. Moore and family have returned from Baltimore to this county to spend the summer.

Dr. George W. Trull of Baltimore, was in Salisbury several days this week, visiting relatives and friends.

Rev. S. W. Relgatt and Mr. A. G. Toadwine attended the Presbytery at Delaware City, Del., this week.

Dr. Lee, secretary of the State Lunatic Commission, visited the Wicomico Alms House last Tuesday. He was pleased with the order of the institution.

A Heavy Theft?

Our correspondent at B. C. Springs sends us the following items:

The station house here was broken open Wednesday night by burglars who succeeded in getting away with a couple boxes of matches. A like attempt was made to rob the liquor saloon of G. W. S. Taylor. For their trouble in that direction they secured about a dollar in "small fry."

The same correspondent says the junior members of Col. Wm. J. Leonard's family visited the Springs on Wednesday; also, that commission merchants from the northern cities have been among the farmers of the county during the week soliciting consignments.

Mr. Somers Gunby has associated himself with Mr. Dean W. Perdue in the way of business. The latter, known here, being natives of this county, and they are having considerable success in their business.

The "World to Move." While visiting the store of R. E. Powell & Co., recently, we were interested in a "bottom maker" which the firm has just purchased to make the women's department of the establishment more nearly complete. In a few minutes, any quantity of buttons of any size or color to match the goods.

George K. Phillips & Co., of Sharptown will launch to-day the largest boat ever built at that town, and perhaps as large as ever built on the Nanticoke, into whose waters she will be floated. Into whose waters she will be floated. The boat is owned by a stock company, many of the members of which reside in Sharptown. Capt. Marshall of Bethel, Del., will take charge of her.

Rev. C. S. Arnett was recently called in to marry a couple of country people. At the end of the ceremony several junior members of the bride's family were brought up for baptism. For the pastor's long ride and the performance of his sacred functions the groom promised to pay him a few dollars "sometime when times got a little better."

A pair of shad brought to the pivot bridge yesterday weighed twelve and a half pounds. Mr. S. Ulman purchased the pair.

The Old, Old Story.

There can be no more eloquent testimonial of the good in a man's heart than the life insurance policy he leaves behind him when he is dead and gone.

It is only a sheet of heavy paper, containing some written and printed words, apparently, but read its history and see if it does not reflect the very inner life of the dead man. Let us take it up and look at the date: "June 5, 1856," thirty years ago. The amount is \$10,000, and it is counterfeited by the agent at Marlton, Ohio. He was young then, this man that lies so quiet in the adjoining room, who has entered on his long sleep; "nearest birthday twenty-five," so the policy says. It also says that he was married, and the policy is drawn in the name of his wife. It does not appear in the instrument, but he had been married two years, and the policy was a birthday present. How did he chance to think of a gift of this kind on his birthday? Well, it was an agent who put it into his head, and on for several months had endeavored to induce him to insure his life. But there was one serious objection: a lack of money, or rather, of what is generally called spare cash. He was doing a fairly good business, and he could at any time have drawn his check for the amount of the premium; but he hesitated to do that, he ought to defer the matter until he could better afford it. And what led him up to a decision at last? That motive which turns the scale in favor of the life policy in ninety-nine cases out of a hundred, a motive which, if uniformly wanting, would put an end to the business for all time. It was the thought of home. The thought of what it would be if the guardian and bread winner should pass away and fall to leave the wife and children for its protection. Just about this time the birthday anniversary was drawing near, and the policy was ordered.

But it was not an altogether welcome present. With it came thoughts of "the pall and breathless darkness of the narrow house." It was accepted grudgingly, however, owing to the spirit that prompted it, but there was a secret wish that it might be some other kind of a gift.
